

WHAT IS THE CONVERSION SERVICE?

There are several differences between the structure of Microsoft project and Primavera P6 that need to be considered when converting.

Imagine you are bidding on a project that requires Primavera P6 files or you may have a client who has placed a contractual requirement as part of the project for Primavera P6 files.

It's not easy to do the file conversion if you don't have the appropriate tools or skills available to you.

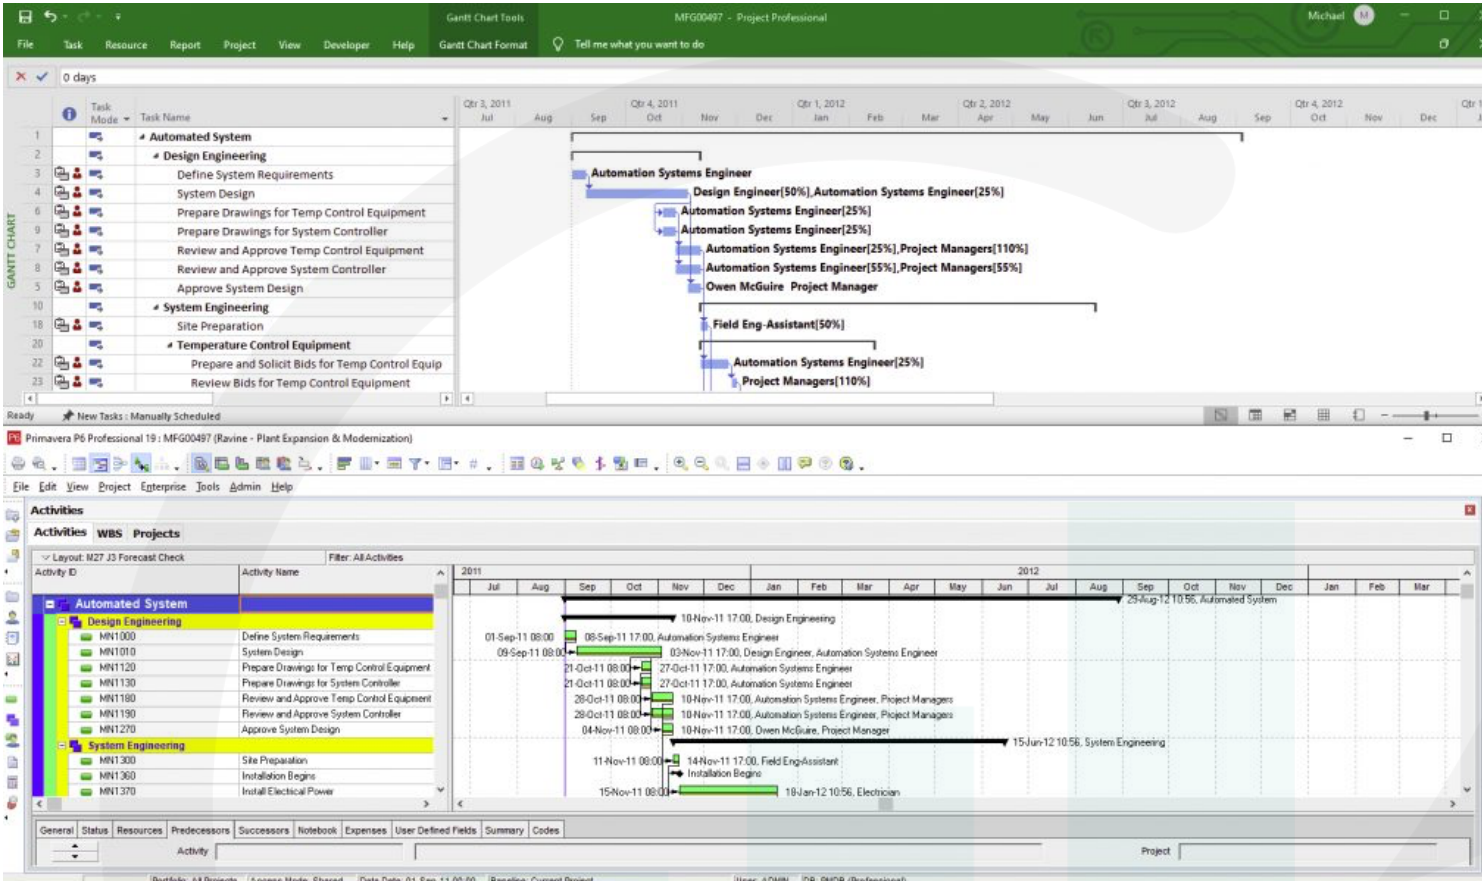

CONVERSION OF MICROSOFT PROJECT TO PRIMAVERA P6

WHAT ARE THE BENEFITS?

- Meet client contractual requirements
- Quick conversions process and validation of file conversions
- Fixed Fee

WHEN IS THE RIGHT TIME?

Anytime there is a contractual requirement to provide the programme schedule in Primavera P6 format, or if you are migrating from Microsoft Project to Primavera P6.

WHAT OUTPUTS DO WE PROVIDE?

A validated Primavera P6 (.xer) file, along with a pdf showing that the conversion was successful.

Additionally, you'll receive a Gantt chart report so you can see exactly what your customer will see.

HOW DO WE DELIVER THIS SERVICE?

We can convert your Microsoft Project .mpp file (any version) to a Validated P6 .XER or P6 .XML file for any version of Oracle Primavera P6.

Simply provide us with the Microsoft Project file requiring conversion and we will take it from there.
